Introducing the SnoWinch™ 1.5, the first winch recovery system built for snowmobilers. It is easy to rig and pulls any battery-powered snowmobile from the front, or rear. Comes with everything a rider needs, including 40' of synthetic rope that stays flexible in the cold. All in a custom kit with WARN® bag that weighs only 15 lbs. Hit the trail with the WARN SnoWinch. And never look back.

Get the new WARN SnoWinch by calling 1-800-910-1122 to find your WARN dealer. [www.warn.com](http://www.warn.com)
