

STEEL GUTTER MOUNT VAN RACK

FEATURING A PATENTED CLAMPING SYSTEM

Go ahead and compare our vans racks to the other company's line. You'll see ours are the prom queen (cause they sure are pretty) AND the captain of the football team (we're talking tough). Cross Tread's steel gutter mount van racks come with a sleek patented universal gutter clamping mechanism. We offer two different weight capacities, depending on what you need to carry. Order a third rail and carry even more stuff.
