 mounts in any position

- NEW! rail system designed to accommodate our NEW! Contractor Rig®, Utility Rig® and Multi-Sport Systems with the JackRabbit™ and Bedlocker® retractable tonneau covers
- Customers now have their choice between our existing low-profile rails or our NEW! Explorer Series Rails
- Aluminum rails are black powder-coated for a smooth and durable finish
- Rails install quickly and easily with our no-drill SpeedClamp™ (patent pending) mounting system
- UPS shippable!

Check out the versatile new ExplorerSeries™ bed rails, from the truck accessory specialists at Pace Edwards. Now you can have a solid and secure retractable hard tonneau cover AND removable utility/sport rig systems! Secure and protect valuable gear below the tonneau cover while you carry large equipment or supplies above the cover. Black powder-coated extruded aluminum rails feature keyhole-style channels to instantly secure exchangeable utility or sport rig mounts. Pace Edwards exclusive ExplorerSeries™ rails install quickly and easily with no-drill clamps.
