

ROLL-TOP-COVER®

The ORIGINAL Retractable Tonneau (polymer vinyl laminated to aluminum panels)

Standard Lock Cover

Optional Pull Strap

Optional Handle Insulator

- The original retractable hard tonneau cover since 1985!
- Hard tonneau cover retracts out of the way into canister at the front of the truck bed leaving plenty of room to haul large cargo when you need to.
- Weather-resistant padded vinyl polymer laminated to rigid aluminum panels that glide smoothly along black powder-coated side rails
- Heavy-duty spring helps the tonneau cover retract smoothly and easily
- Key locks cover securely at the tailgate
- No Drill, Clamp-on design is available as an alternative for most applications
- Low-profile, aerodynamic design increases fuel economy up to 11%
- Lock Cover comes standard with all Roll-Top-Covers
- Optional pull strap kit and handle insulator available
- All Pace Edwards Covers come standard with WeatherGate™ tailgate seal
- UPS shippable!

ROLL-TOP COVER® is known all across the country as the original retractable hard tonneau cover, and now Pace Edwards has made it even better. For example, ROLL-TOP COVER® now features standard lock covers, to protect the lock cylinder from weather and wear, and WeatherGate™ tailgate seals to help keep weather out of the bed area. Special grooves have been added to the black powder-coated side rails, for easier and faster installation with the optional no-drill clamp kits. As before, ROLL-TOP COVER® features padded weather-resistant vinyl polymer laminated to rigid aluminum panels that glide smoothly along side rails. ROLL-TOP COVER® has been around since 1985, and is still one of the best selling tonneau covers on the market.
