NEW ALSO AVAILABLE TO FIT WITH YOUR EXISTING TOOL BOX

FULLTILT™
EASY TO USE HEAVY DUTY HINGED TONNEAU

Also Available in a Smooth-Edge Snapless Version

No Hinges or Latches are in the way to hinder loading of your cargo!

FULL USE OF BED

QUICKRELEASE™
This Extang Engineered Hinge System* is revolutionary and helps make the FullTilt™ the most advanced tonno built in the industry today.

THE EXTANG
Warranty
**10 YEAR TARP
LIFETIME FRAME**

3 WAYS TO QUICKLY ACCESS YOUR TRUCK BED:

1 Remove entire tonneau & frame, by yourself, with no tools.

1 Gas shocks are designed to be easily removed by hand using a ball and joint snap release. No tools needed. *Leave your entire tonneau at home within seconds!*

2 Grab the tonneau & lift up at an angle as shown and the QuickRelease™ instantly disconnects.

3 Now pick it up and off. The rugged reinforced aluminum frame and vinyl tarp is only 30 lbs. Lifts off by only one person.

2 Roll it up and go!

Can't leave the frame? Then, roll up the tarp and remove the bows for carrying large items back home. No tools.

3 Simply drop tailgate

The tonneau and rail are not attached to the tailgate. It's safe and quick to open,

AMERICA'S NO.1 SELLING TRUCK BED COVERS

* EXTANG'S QUICK RELEASE™ IS U.S. PATENT PENDING

FULLTILT™

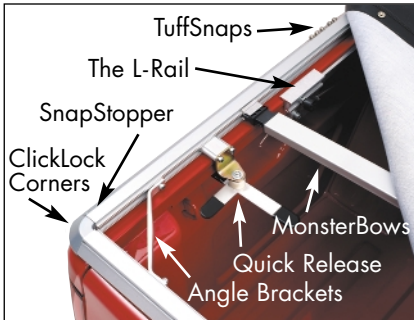

EASY TO USE HEAVY DUTY HINGED TONNEAU

ALLOWS MAXIMUM USE OF YOUR TRUCK BED SPACE 1-877-216-5446 www.realtruck.com

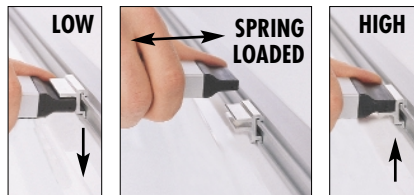

The perfect tonneau for cold climates

- All-weather adjustable snaps and hinged tonneau design allow for year-round bed access even in the coldest climates.
- Can be easily used with one hand.
- No drilling. No damage. Protects finish.
- Quick and easy do-it-yourself installation.

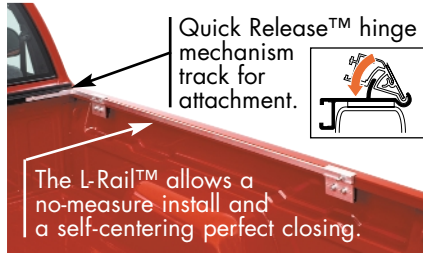

Bow height adjustment

Extang's MONSTER BOWS™ quickly spring on and off with no tools. It's fast and easily done with one hand. The F-clamps allow two bow heights: **HIGH** for maximum water shedding in harsh weather, and for improved gas mileage. **LOW** for sporty good looks and cold weather tonneau attachment.

Advanced FullTilt™ Tonneau Features:

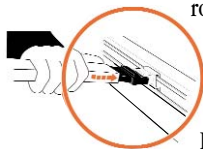

- Most advanced features of any tonneau made.
- Extang engineering gives a solid and secure feel as the hinged tonneau is opened and closed.
- Hinges at front cab rail and not in the middle of tonneau fabric - avoids tarp wear. Rail hinge allows strength and maximum access to bed.
- Extang's patent pending Quick Release™ and L-Rail™ System provide a no-measure installation that is accurate and easy to do.
- L-Rails™ create a self-centering lid system that also prevents damage to the truck's finish.

- Long centered handy pull strap for easy reach and a true level closing.
- Tarp can be rolled up and bows removed for hauling that unexpected large load home.
- Proven neoprene rubber padded TuffKlamp™ attachment system. No damage. No drilling.
- Polymer covered latching handles do not scratch the truck, or restrict cargo space like cross-bar latches.
- Automotive style sealing system:
 - ribbed seal at rear tail gate.
 - tubular labyrinth seals along sides.
- Aluminum tonneau frame, spring-loaded Monster Bows™ and ClickLock™ corners with Stainless steel TuffSnaps™ - all state-of-the-art Extang patented features that bring the best in design to the ultimate hinged tonneau system.
- The finest quality and most solid construction possible. Extang engineered throughout.

Bows will never fall off

The MONSTER BOWS™ ends are spring loaded for easy installation. They will never fall off at any speed or even with the roughest driving conditions. Simply push and hold on one end and let the other end slide on using the spring action. They are Extang engineered for simplicity, speed of install and everyday convenience and confidence.

NEW NOW AVAILABLE TO FIT WITH YOUR TOOL BOX

THE EXTANG

Warranty
10 YEAR TARP LIFETIME FRAME

The Best Warranty

Ten year tarp and lifetime frame - the best in the industry. Longer than most folks will own their truck! It's more than enough coverage.

Tarps designed for strength & good looks

Corners don't buckle up due to parachute grade nylon corner reinforcements. Snaps & corners are backed with thick polymer forcing the corners and edges to

lie smooth and look good in any weather. The thick polymer edging also keeps your snaps from ripping out!

Snaps are your tonneau's most important part

Now Available in a Smooth-Edge Snapless Version

TUFFSNAPS™

Extang's engineered stainless steel and brass snaps will not break. The smallest part of the FullTilt tonneau system is one of the largest reasons why Extang tonneaus are America's number one selling tonneau covers.

Patented 4-Way adjustable snaps: perfect for cold days

Stud low for tight fit in hot weather **Slide off, flip over, then slide on again** **Stud high for looser fit in cold weather**

The true leader in engineered design excellence... Extang has more U.S. patents than all other tonneau companies combined!
