

Installation Instructions for 06-07 Chevrolet & GMC Silverado/Sierra Ext. Cab 5'8" Extra Short Box (Classic) Underseat Storage

Installation Instructions:

- 1 Flip up the rear seats.
- 2 Thread the nylon straps through the seat belt brackets (bottom of the seat belt, under the rear seat, on top of the ledge) by sliding each strap through the back side of the brackets/seat belts so the buckle ends up on top.
- 3 Position the DU-HA under the rear seats with cut out slots facing towards the truck bed.
- 4 Turn the wing nut on the jack handles and tighten as much as possible. When the wing nut is tight, turn it so it is horizontal, as pictured.
- 5 Lift up on the tire iron (on the end of the jack tools bag) and push towards the back of the cab, as pictured.
- 6 Thread nylon straps through the slots in the back of the DU-HA.
- 7 Secure each strap by threading the strap through the bottom of the back slot of the buckle and down through the front slot of the buckle. Tighten. The nylon straps will help secure the DU-HA in the truck.
- 8 Install the foam organizer/gun racks by sliding them into the pre-cut channel slots in the DU-HA (as shown).

Ribs on buckle should face up. Thread strap through buckle as shown.

Safety Instructions:

Warning: Seats must be down at all times while vehicle is moving.
 Make sure the DU-HA is secured in vehicle according to installation instructions.
 Do not store explosives or hazardous materials in the DU-HA.
 Do not place loaded guns in the DU-HA.

For further instructions refer to the truck owners manual or contact DU-HA, Inc.
