

Installation Instructions for 07-11 Chevrolet & GMC Silverado/Sierra Regular Cab (New Body Style) *Behind-the-Seat Storage*

Installation Instructions:

- 1 Open the passenger side door. Tilt and slide the seat forward.
- 2 Behind the seat you will have a jack tools bag. Turn the wing nut on the jack tools bag counterclockwise and remove the wing nut & metal bracket. Remove jack tools bag and set aside.
Note: If your truck has the plastic covering over the jack handles this must be removed to install the DU-HA.
- 3 Insert the DU-HA storage unit behind the seat, making sure the DU-HA lettering faces towards the front of the truck. Position the DU-HA so the bolt that held the jack tools bag in place comes through the hole in the bottom of the DU-HA.
- 4 Place the included washer over the bolt. Then screw the 8mm nut onto the bolt. Tighten clockwise until snug. Do not over tighten.
- 5 Set the jack tools bag inside the DU-HA, if desired.
- 6 Install the foam organizer/gun racks by sliding them into the pre-cut channel slots in the DU-HA (as shown), if desired.

Safety Instructions:

Warning: Seats must be in their upright positions at all times while vehicle is moving. Make sure the DU-HA is secured in vehicle according to installation instructions. Do not store explosives or hazardous materials in the DU-HA. Do not place loaded guns in the DU-HA.

For further instructions refer to the truck owners manual or contact DU-HA, Inc.

2 extra straps are included to secure guns/gear in place.
